

Virtual Community of Support for Early Learning November 2012

Virtual Early Learning Program

The Virtual Early Learning Program is a free program offered to families with children aged 0-5 years who are living in a rural/isolated community. Weekly group sessions will be held on-line with children and a Early Childhood Educator to focus on key areas of learning such as numeracy and literacy. As well, parents will have an opportunity to network with other parents on-line to support early learning. We will also offer a story time on-line once every other week where children can attend, listen and interact with the reader.

To learn more about our program visit our website at www.des.prn.bc.ca/groups/strongstart/ or contact our office at 1-800-663-9511 ask for our Early Learning Program or email dwormley@prn.bc.ca
