

# Virtual Community of Support for Early Learning

## JUNE 2011

### Virtual Early Learning Program

The Virtual Early Program is a free program offered to families with children aged 0-5 years who are living in a rural/isolated community. Weekly group meetings will be held on-line with parents and a Early Childhood Educator to facilitate rich early learning activities within the home. As well, parents will have an opportunity to network with other parents on-line to support early learning. We will also offer a story time on-line once every other week where children can attend, listen and interact with the reader.

To learn more about our program visit our website or call us at Northern BC Distance Education School.

Mon	Tue	Wed	Thu	Fri
		1 Discussion Session 9 am	2	3 Story Time 9 am
6	7	8 Pod Cast	9 Activity Time 9 am	10
